

Tile Specifications

Pebble Tiles

All natural pebble tiles are packed in 13" x 13" x 6" boxes. Each box weighs approximately 45 lbs. Each box includes 11 tiles that are approximately 12" x 12". Pebble tiles have an elevation of 3/8". Natural pebble tiles are constructed of pebbles hand harvested from different islands throughout the Indonesian archipelago. The pebbles are applied to a double mesh backing with a polymer adhesive. All natural pebble tiles are interlocking to create a seamless environment.

Timor White – white pebbles hand harvested from the island of Timor, Indonesia.

Timor Tan – tan pebbles hand harvested from the island of Timor, Indonesia.

Grey Cloud – light grey pebbles hand harvested from Bali, Indonesia.

Ocean Blue – a mixture of dark blue/grey/black pebbles hand harvested in Sumba, Indonesia.

Borneo Mix – a mixture of natural grey pebbles hand harvested from the island of Sumba

Black Sumatra – pure black pebbles hand harvested from the island of Sumatra.

Island Blend – blend of grey, white and tan pebbles, Timor.

Seaside Mix – mix of white grey and ocean blue pebbles, Timor and Sumatra.

Wave Tiles

All wave tiles are packed in 13" x 13" x 6" boxes. Each box weighs approximately 45 lbs. Each box includes 11 tiles that are approximately 12" x 12". All wave tiles have an elevation of 3/8". Wave tiles are constructed of pebbles hand harvested from different islands throughout the Indonesian archipelago. These pebbles are then machine cut to create a tile that has the pattern of a standard pebble tile with a completely flat surface. The flat pebbles are applied to a double mesh backing with a polymer adhesive. The wave tile is interlocking to create an almost seamless environment.

Flores Green – green/blue/gray pebbles from Flores, Indonesia.

Timor White – bone white pebbles from Timor, Indonesia.

Timor Tan – tan pebbles from Timor, Indonesia.

Midnight – the purest black pebbles in the world from Alor, Indonesia.

Golden – yellow, green and tan hued pebbles from Java, Indonesia.

Twilight – black/grey pebbles from Sumatra, Indonesia.

Seaglass – green onyx rolled, tumbled and sliced. Java.

Pacific Blue – blue, green hued pebbles mixed, Sumatra.

Island Blend – mix of tan, white and grey pebbles

Seaside Mix – mix of white, grey and ocean blue

Sandy Beach – mix of tan and white pebbles

Coastal Mist – mix of grey and white pebbles

Borneo Mix – natural mix of various river pebbles

Mini Pebble Tiles

All natural mini pebble tiles are packed in 13" x 13" x 6" boxes. Each box weighs approximately 40 lbs. Each box includes 11 tiles that are approximately 12" x 12". Mini pebble tiles have an elevation of 3/8". Natural mini pebble tiles are constructed of small pebbles hand harvested from different islands throughout the Indonesian archipelago. The small pebbles are applied to a double mesh backing with a polymer adhesive. All natural mini pebble tiles are interlocking to create a seamless environment.

Timor White – white pebbles hand harvested from the island of Timor, Indonesia.

Timor Tan – tan pebbles hand harvested from the island of Timor, Indonesia.

Grey Cloud – light grey pebbles hand harvested from Bali, Indonesia.

Ocean Blue – a mixture of dark blue/grey/black pebbles hand harvested in Sumba, Indonesia.

Borneo Mix – a mixture of natural grey pebbles hand harvested from the island of Sumba

Black Sumatra – pure black pebbles hand harvested from the island of Sumatra.

Coming soon! Island Blend – blend of grey, white and tan pebbles, Timor.

Coming soon! Seaside Mix – mix of white grey and ocean blue pebbles, Timor/Sumatra.

Mini Wave Tiles

All mini wave tiles are packed in 13" x 13" x 6" boxes. Each box weighs approximately 40 lbs. Each box includes 11 tiles that are approximately 12" x 12". All mini wave tiles have an elevation of 3/8". Mini wave tiles are constructed of small pebbles hand harvested from different islands throughout the Indonesian archipelago. These small pebbles are then machine cut to create a tile that has the pattern of a standard pebble tile with a completely flat surface. The flat pebbles are applied to a double mesh backing with a polymer adhesive. The mini wave tile is interlocking to create an almost seamless environment.

Borneo Mix – natural mix of various river pebbles

Flores Green – green/blue/gray pebbles from Flores, Indonesia.

Timor White – bone white pebbles from Timor, Indonesia.

Timor Tan – tan pebbles from Timor, Indonesia.

Golden – yellow, green and tan hued pebbles from Java, Indonesia.

Twilight – black/grey pebbles from Sumatra, Indonesia.

Seaglass – green onyx rolled, tumbled and sliced. Java.

Island Blend – mix of tan, white and grey pebbles

Seaside Mix – mix of white, grey and ocean blue

Coming soon! Sandy Beach – mix of tan and white pebbles

Coming soon! Coastal Mist – mix of grey and white pebbles

Mosaic Tiles

All mosaic tiles are packed in 13" x 13" x 6" boxes. Each box weighs approximately 45 lbs. Each box contains 11 tiles that are approximately 12" x 12". All mosaic tiles have an elevation of 3/8". Mosaic tiles are constructed of different materials that are tumbled and applied to a double mesh nylon backing with a polymer adhesive. All mosaic tiles are designed to interlock to create a seamless environment.

Beach Mix – a mix of onyx, sunset and white marble from quarries in Java, Indonesia.

Onyx – tumbled onyx from quarries in Java, Indonesia.

Dark Grey Marble – dark grey marble from quarries in Java, Indonesia.

Sunset- brown onyx from Java, Indonesia

Mountain Mix – mix of black pumice, light grey and dark grey marble, Java

Storm Grey – mix of light grey and dark grey marble, Java

Sanur Mix – mix of black pumice, dark grey marble and onyx, Java

White Marble – white marble from quarries of Java

Orbitals

All orbital tiles are packed in 13" x 13" x 6" boxes. Each box weighs approximately 45 lbs. Each box contains 11 tiles that are approximately 12" x 12". All orbital tiles have an elevation of 3/8". Orbital tiles are constructed of different materials that are tumbled and applied to a double mesh nylon backing with a polymer adhesive. All orbital tiles are designed to interlock to create a seamless environment.

Beach Mix – a mix of onyx, sunset and white marble from quarries in Java, Indonesia.

Onyx – tumbled onyx from quarries in Java, Indonesia.

Dark Grey Marble – dark grey marble from quarries in Java, Indonesia.

Sunset- brown onyx from Java, Indonesia

Mountain Mix – mix of black pumice, light grey and dark grey marble, Java

Sanur Mix – mix of black pumice, dark grey marble and onyx, Java

Bali Blocks

All bali block tiles are packed in 13" x 13" x 6" boxes. Each box weighs approximately 45 lbs. Each box contains 11 interlocking tiles that are approximately 12" x 12". All bali block tiles have an elevation of 3/8". Bali block mosaic tiles are constructed of different materials that are machine cut and applied to a double mesh nylon backing with a polymer adhesive.

Onyx – tumbled onyx from quarries in Java, Indonesia.

Mountain Mix – mix of black pumice, light and dark grey marble from quarries in Java

Beach Mix – a mix of onyx, sunset and white marble from quarries in Java, Indonesia.

Standing Pebble Tiles

All natural standing pebble tiles are packed in 12.5" x 12.5" x 10" boxes. Each box weighs approximately 55 lbs. Each box includes 22 tiles that are approximately 6" x 12". Standing pebble tiles have an elevation of 7/8" to 1". Natural standing pebble tiles are constructed of pebbles hand harvested from different islands throughout the Indonesian archipelago. The pebbles are cut in half and applied to a double mesh backing with a polymer adhesive. All natural standing pebble tiles are interlocking to create a seamless environment.

Ocean Blue – hand harvested pebbles from the island of Sumatra, Indonesia.

Borneo Mix – hand harvested pebbles from the island of Borneo, Indonesia.

Timor Tan – hand harvested pebbles from the island of Timor, Indonesia.

Timor White - hand harvested pebbles from the island of Timor, Indonesia.

Vetris

All natural vetris tiles are packed in 12.5" x 12.5" x 6" boxes. Each box weighs approximately 40 lbs. Each box includes 22 tiles that are approximately 6" x 12". Vetris sliced pebble tiles have an elevation of 3/8". Vetris or sliced standing pebble tiles are constructed of pebbles hand harvested from different islands throughout the Indonesian archipelago. The pebbles are cut flat on two sides and applied to a double mesh backing with a polymer adhesive. All natural vetris sliced tiles are interlocking to create a seamless environment.

Ocean blue – bluish-black hand harvested pebbles from the island of Sumatra, Indonesia.

BorneoMix – hand harvested pebbles from the island of Borneo, Indonesia.

Timor Tan – tan hued hand harvested pebbles from the island of Timor, Indonesia.

Timor White – white hued hand harvested pebbles from the island of Timor, Indonesia.

Ancient Exotic - 6" x 18" wall cladding made of cut shards of slate, approx. 1 square meter per box.

Large Format Wave Tiles (LFWT) **COMING IN MARCH 2017!**

All natural LFWT tiles are packed in 24" x 24" boxes. Each box weighs approximately 65 - 75 lbs. Each box includes 4 tiles that are approximately 20" x 20". LFWT tiles have an elevation of 3/8" to 5/8". LFWT tiles are constructed of very large pebbles hand harvested from different islands throughout the Indonesian archipelago. The large pebbles are sliced flat and applied to a double mesh backing with a polymer adhesive. All natural pebble tiles are interlocking to create a seamless environment.

Timor White – large white pebbles hand harvested from the island of Timor, Indonesia.

Timor Tan – large tan pebbles hand harvested from the island of Timor, Indonesia.

Grey Cloud – a mixture of large blue/green/grey pebbles from the island of Flores, Indonesia.

Island Blend – large black pebbles hand harvested from the island of Sumatra.
